

Discussion series
BUILDING THE SUSTAINABILITY.
LATVIA AND ICELAND

IMPLEMENTATION OF SDG'S IN PUBLIC AND PRIVATE SECTOR ORGANIZATIONS

2nd discussion

December 2, 2021
13.00 - 15.30 (Riga time)

Latvian Platform for Development Cooperation (LAPAS) in collaboration with Icelandic Centre for Sustainability Festa continues a three-year discussion series
"BUILDING THE SUSTAINABILITY. LATVIA AND ICELAND".

The focus of the discussion series is an action for sustainability - from concept to practice. In the course of this discussion, we will get acquainted with Icelandic practice - two different perspectives on the implementation of SDG's in public and private sector organizations and will search for the most successful implementation model of SDG's in Latvia.

We invite all interested stakeholders from companies, government institutions and NGOs to participate with an input to the development and implementation of the discussion topics.

Please register for the event by December 1 [here](#).

PROGRAMME

Working language - Latvian, with English translation.

13:00 - 13:05 Opening of the discussion

Ms. INESE VAIVARE, Latvian Platform for Development Cooperation (LAPAS), director
